Did you know that there is a SHORT-CUT available to you in the process of eliminating heavy metals?

Did you know also that the Center for Advanced Medicine feels so strongly about the benefits to you, the patient that we are offering a package with a \$45 discount?

WHAT IS THIS SHORTCUT? It's as easy as 1, 2, 3!

In addition to the (1) *DMPS* treatments, many patients are experiencing the added benefits of (2) *lymphatic massage* and (3) *colonics*.

When combining your *DMPS* treatment with a lymphatic massage and a colonic treatment, significantly more heavy metals are pulled out than with the *DMPS* treatment alone.

HOW DO THESE TREATMENTS WORK? (Like squeezing toothpaste from the bottom up.)

Your body's lymphatic system filters waste products and toxins. We combine lymphatic massage with the use of a *DMPS* shot to kick your toxin processing system into high gear, pulling mercury and heavy metals out of your

tissue and into your lymphatic system. The lymphatic massage pushes the lymph through the body quickly. The toxin and heavy metal laden lymph then empties directly into the bloodstream. From this point, drinking a lot of water then filters this toxicity through the kidneys and it is then eliminated.

In addition, evidence of toxins and heavy metals have been seen during the colonic sessions.

This cleaning of the pathways by pushing the lymph through and flushing out the colon leaves your body's toxin processing system free to work with the *DMPS* in filtering and eliminating even MORE heavy metals!

IS TREATMENT ORDER IMPORTANT?

The optimal timing of this powerful shortcut is within six to twelve hours of the *DMPS* treatment.

When the massage and colonic are done first, the pathways are cleared of all the toxins your body is in the process of filtering, thus leaving things open for all the metals the *DMPS* pulls out.

When the *DMPS* is done first, the metals are rushing into the pathways where they are quickly and effectively pushed along their way in the elimination process.

Either way, you'll be giving your system a tremendous "helping hand" in its fight to regain health.

WILL I SAVE TIME AND MONEY?

By pulling more metals out with each *DMPS* treatment, there are fewer treatments needed. This saves patients money, as well as getting the metals out more quickly and, as many patients have reported, there are less unpleasant side effects.

So, why not take better advantage of this shortcut to better health while making use of our special discount offer, as previously mentioned?
